### FEEDBACK FROM HR

- **motivated person with experience in multiple areas**
- **has production experience in building front-end applications. He had no chance to work in good dev environment (Scrum, code reviews, CI/CD) and mostly self learned developer**
- **can grow fast with good mentoring or in skilled team**
- **is really motivated and has good soft skills**
- **understands how to build communication to find the root cause , flexible and open for recommendations, can be a good team player.**
- **self-development is very important for him**
- **with good mentor he will succeed and fill existing gaps**

### EDUCATION
